SONOR GU10
CEILING-MOUNTED FITTING

Kanlux

1. LED strip

2. PAR16 GU10

3. LED strip **+** PAR16 GU10
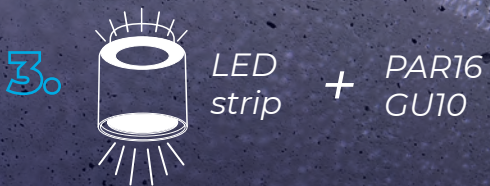

Kanlux SONOR GU10 is a ceiling-mounted fitting with an additional LED strip.

The use of two separate light sources allows the lamp to offer three different lighting options.

1.

2.

3.

LED strip is only on

Gently warm **100 lm** light, lit ceiling effect - the so-called lighting crown.

Ideal evening light or ideal for providing a small amount of light.

PAR16 GU10 light source is only on

The plastic lampshade makes the light source invisible.

The fitting looks as if it was integrated, while the milky lampshade disperses light.

LED strip & PAR16 GU10 light source are both on

All fitting lighting options combined.

To ensure consistent light, we recommend using light sources with a colour temperature of 3000 K.

We recommend using a double light switch for Kanlux SONOR GU10 fittings.

Kanlux SONOR GU10

High quality.
Two standard
colours.
